Dear Albert, it was really nice to get the book, which I read very carefully.

For sure don't want to give my opinion about the clear educational/humanues value of this book, because it' so brightly evident! The educational reform is the base of a evolutional progress to reveal human values. From a technical point of view (I speak as a graphic artist) the first feature of this book is the beauty of its graphics and layout. Although the contents is so relevant, the presentation is so modern and eye-catching that makes the experience of reading it so fluent and enjoyable. This is the key to make such an important book suitable for every type of reader. It is really fantastic because it seems like reading a story book written for children. Indeed (allow me this reflection) this is really a book for children, the child in all of us who never stops wondering about the surrounding beauty of the whole creation. Sure that this project will soon come true, wish all the best. A hug
William

Dear Prof Dr Ferrer,

Thank you for your email dated 1 July regarding information to create an IB candidate school in South India.

Your project sounds exciting and we look forward to working with you in the future.

Detailed information on the authorization process and fees involved in becoming an IB World School can be found on our website <http://www.ibo.org/become/index.cfm>.

All schools considering IB authorization are encourage to read all essential information available on the website before proceeding to submit the School Information form online. <http://ibforms.ecampuspro.com/login.php?reg=3>

For further assistance, please feel free to contact IB Answers.

Kind regards

Dear Albert,

Thank you for your ernal dated 01/07/2011 regarding becoming an IB school.

I have passed your query to the Singapore department so that they can provide you with further information. They should get back to you within 3 working days.

Thank you for your patience.

For further assistance, please feel free to contact IB Answers.

Kind regards

Dear Sir,

I am happy to keep in touch with you from Europe.

It was scheduled to come back on the 6th, but for some important work here I have postponed till the 26th. I will be in Bangalore on Friday 27th, Saturday 28th and Sunday 29th; it will be a pleasure to see you again.

I have finished the last revision of the pdfs presenting this beautiful educational project that I have been elaborating in the last six years. The new versions, apart from the general refinement, also make it more explicit that the important thing is the essential message together with general principles and method, for which the project is totally open to flexibility and adaptation towards implementation according to the context and organization that may be interested.

There are four pdfs, one for the entire project and one for the school model only, one in a longer presentation and one in summary.

The scope for this kind of education is tremendous in India, and India can be a pioneer in the world for the future.

I am happy to share so many fundamental things with you. And I hope this is only the beginning of a fruitful

Asunto: Re: Rv. Message from G.Balasubramanian

Dear Prof Albert,

Sairam.

I thank you immensely for your letter and the contents. The world needs today Education in Human Values and I am sure even a small step we take in this regard it will be of a great contribution to the community.

I have basically been an academician working with the CBSE for about 25 years before I was a Principal of a Public School at Chennai. By the grace of Swami I was able to do a bit of contribution to the Indian Educational scenario till 2006 when I retired. Subsequently I have been engaged in motivating and training teachers across the country (with the assistance of Pearson Education, an Educational services provider) and I have done over 600 training programs covering more than 25000 teachers. It is just the energy given by Swami that keeps me going so long.

I had also been associated with the development of the International Curriculum of CBSE which has been launched two years before for schools abroad and presently in India.

I would certainly be happy to extend any help I can in the visualization and positioning of this dream project.

Dear Sir.

Sai Ram.

Thank you for the wonderful meeting we had today; the lunch was also excellent. And thank you again for sending me to the school in Chickballapur, it was a beautiful experience with both teachers and students. I was impressed by the place, and as you warned me, very especially by the grand auditorium. By the way, I immediately recognized Sri Sathyanarayana, we had met several times in Muddenahalli and even in Parthi; he was very happy.

Above all, thank you for understanding and appreciating this project which involves so much work, so many years, and which is so unique, and also dear to Baba, since it offers an original synthesis of education, spirituality, philosophy, science, and psychology, the West and the East, with a comprehensive pedagogic practice and an academic theoretical foundation, always in a cosmopolitan spirit towards the unity of mankind within a deeper cosmic unity.

Needless to say, I am sure just like you that Baba will guide us in the process of implementation which lies in His hands only. Swami will also take care of the material needs and the family responsibilities.

In parallel to that, I will be pleased to collaborate and work together with all of you; your educational organization is highly valuable, it is an honour to be associated with you, and for me, in fact, it is something very special. You may remember that I saw Muddenahalli campus in dreams while still in Europe, after which Baba brought me to the place at the physical level in 2006. You can see all the significance that your superb campus conveys for me.

Please remember that in August (second week) I shall fly to the USA to give some lectures to that group of prominent Sai devotees who want to do one school following the project in the surroundings of Los

Mr Rajeswar Kanapati

Film Maker

Ramakrishna Mission

Dear Mr. Albert Ferrer,

It's indeed a great honour to know a person of immense intellectual wealth like you and a greater honour to interact and work for a worthy cause.

It's immense pleasure to say that your great achievements in the field of literature, philosophy and education is awe inspiring and your vision commendable.

I'm a film maker and I've made several films in the past few decades the details of which I've attached herewith.

I had an opportunity of meeting and exchanging ideas with Ramakrishna Mutt head Swami Atmananda and Swami Gnaneshwarananda with whom my business associate Mr. Pugazhenthly had had a long relationship. I understood and appreciated their deep wishes of developing their existing educational institutions and promoting new institutions in their vast properties that are spread all around the state. They have few colleges and schools in the name of Saradha for women's institutions and Vivekananda or Ramakrishna for the male. This Ashram is not to be confused with Ramakrishna Mission which has its HQ in Chennai.

The issues that we have to discuss are the nature, identity and the scope of the joint venture and the fiscal need that may be required and the sources of raising the same if we agree on working together.

Mr. Krishna told me that he may be visiting Chennai this week to hold discussions on the above said issues.

A meeting with you would definitely help in developing the scope of the mission.

Thanks and regards,

Yours sincerely,

Rajeshwar K

Author of "The Tao of Physics"

Dear Prof. Ferrer,

Thank you for kind letter. I find your project very interesting and timely. Unfortunately, however, I have no time to study it right now, as I am concentrating all my energies on completing a major book project, which represents the realization of a dream I have had for many years: an interdisciplinary textbook, titled *The Systems View of Life*, coauthored with my friend and colleague Pier Luigi Luisi (biology professor in Rome) and to be published by Cambridge University Press. In this book we present a coherent systemic framework that integrates the biological, cognitive, social, and ecological dimensions of life, and discuss its philosophical, social, and political implications. For the remainder of this year and part of 2013 I will have to devote all my energies to this project and will not be able to take on any new commitments.

With my best wishes for your project,

Fritjof Capra

On Nov 8, 2012, at 3:13 AM, albert ferrer wrote:

Dear Sir.

After having read some of your books in the last years, it is a privilege to be able to write to you today thanks to a common friend, Jordi Pigem, whom I met last Monday in Barcelona.

In fact, I worked with him for several years in the late 90s with Prof. Raimon Panikkar, who always supported with enthusiasm the project of integral education that I can share with you today.

After being a Lecturer at the University of Barcelona and working with Panikkar, I settled down in South India, where I have been Visiting Professor in the last years. Together with my teaching in Awareness Classes (comparative ethics) in Sri Sathya Sai University, I have developed the project of integral education that started under Panikkar's guidance at the foot of the Pyrenees.

What I can share with you is a summary of a 600 pages book presenting both a philosophy/ theory and a pedagogy/ practice for integral education in a comparative perspective East/ West

Dr Pavan Racherla
NASA scientist

Dear Albert:

sairam.

Thanks for writing to me from Spain. Yes, it must be cold (after all these months in Parthi). I am still here in Hyderabad (but return home on the 12th).

I've been steadily reading through your (painstakingly researched and well compiled) Sai-Educare monograph. The vision is compelling.

Funding your selfless work in the short-term and a pilot project in the longer-term is indeed the most important issue at this point. In this context (and generally), I think it'd be a good thing if we could meet Issac Tigrett. We'll brainstorm more on this when we meet next (20th).

It is heartening to hear about the vision that Swami gave confirming the project. I sense that the right time for this is fast approaching, and that Swami is beginning to make His moves.

Please take some time to relax there.

My best,
 Pavan

Prof. H. Johnson

Antioch University (California)

Om Sai Ram

Dear Professor Dr. Ferrer,

Fond greetings from this side of the planet.

Thanks for your message and willingness to share your wonderful work.

I just returned from a visit to Durban, S.A. to do some work with the new chairperson of the Education Committee of the Sathya Sai World Foundation, Dr. Pal Dhall, and the Zone Chair for Africa. It was an exhausting, yet wonderful visit and we pray our work has inspired persons associated with the ISSE and 3 schools there to continue their great work with increased enthusiasm and harmony.

You and I were to meet some time ago. I had your number and intended to phone you when I was last at PN for Swami's 85th B-day. It was one of those visits where I could hardly keep pace with all that arose. I even got a bit sick, so failed to contact you. Now, thanks to your initiative, I am pleased that we have another opportunity, perhaps more timely...in the scheme of things.

Sounds like you've been hard at work with a blessed project. I am happy to review what you have sent and offer comments, as you wish. I am coming for Guru Poornima and will certainly seek to meet you. In the meanwhile, you may know I am director of the ISSE here. Our ambitious annual course offerings will take place next month at UC, Santa Barbara. We still have much infrastructure work, and the need for more human resources to get where we need to be. A Sai School is far in the distance, or so it seems at this point. Thus we've developed other goals and strategies that we hope will allow us to penetrate the massive, largely dysfunctional, ideologically-laden public (and private) schools systems in this country.

I have *too much* work between now and the end of our courses, but will begin reading what you have sent and will complete it by the time I arrive in Parthi, perhaps around the 20th of July of so, not yet sure. I will have meetings there, but will surely get in direct touch with you this time, if you plan to be there at the time.

I met Dr. Panikkar in the late 1970's soon after I arrived at UC, Santa Barbara. I had a very dear philosopher-priest friend from Kerala who was president of Christ College in Bangalore and held other significant roles. He also studied with him here.

I retired as professor emeritus from Antioch a few years ago, but still teach a MA education class, an occasional seminar, and will give a guest lecture there tomorrow afternoon. It is a small campus that has gone a bit too commercial of late. But with the economy and competition for students as it is now, I can't fault them for doing what they believe is best to stay viable.

Thanks for contacting me again. I look forward to meeting and having genuine satsang around our common interests.

Below I have copied a letter from John Griffin, Ph.D. :

Professor Doctor Albert Ferrer, the founder and director of the Project "International Education for a New World" – establishing SAI International Schools and Colleges – is an international scholar and educator who represents the highest principles of European educational models and the time-tested, venerable spiritual based education model of India, whose widespread influence was enormously vital in ancient times and is now revived. These have coalesced into a naturalistic, holistic model of education critically needed in the modern world. Dr. Ferrer received his Ph.D. Degree, with the highest distinction, from the University of Paris-Sorbonne, completed advanced research at Cambridge University in England, and intensively and experientially studied the traditional spiritual education principles of India. He divides his time between Europe, America, and India where "International Education for a New World" based schools are being developed.

I have greatly appreciated my interaction with Dr. Ferrer over a three-day period in Ojai, and consider him and his model of education to be superb in every respect.

Ojai, California, is a small coastal mountain community which is serving as an incubator for the development of the SAI International Schools and Colleges project in America. A partnership arrangement with World University, long established in Ojai, is being discussed.

Prof. John Griffin.

World University, Ojai (California, USA).

Dear Dr. Ferrer,

Thank you for your response. I'm sorry that your mother is not feeling well. I shall keep her in my prayers.

I would love to Skype with you when you have the time, but we can arrange that once your mother feels better. I shall definitely keep in touch.

Thank you! Sairam!

Warmly,
Nivedita

Dear Dr. Ferrer,

Sairam! I hope you are doing well. I apologise for taking so long to get back to you - I was occupied with my course work, graduation and then moving cities, and although I read the documents you sent me, I wanted to get in touch with you when I was less pre-occupied.

Dr. Ferrer, I am inspired and amazed by the simple yet radical message you have

so beautifully framed in academic language. As I struggle to wrap my head around superficial, behaviorist definitions of moral education and human values, I find it reaffirming to read your work. It resonates very deeply with my belief and objectives as an educator, and with my own spiritual pursuits (which are practically the same for me)

I would be absolutely honored to learn more about your work, and explore opportunities to contribute to it. I am happy to Skype with you at any time which is suitable to you, regardless of the time zone difference. My Skype ID is nivedita.chopra.

Thank you so much for your time and consideration, Dr. Ferrer. I look forward to speaking with you soon.

Sairam!

Warmly,
Nivedita

Dear Professor Ferrer,

Thank you for informing me about what sounds like a most worthwhile project. I would be interested in hearing from you about your ideas for developing it. I will be at Adyar from December 28 to January 1. I hope that you are there and that we could have some time to talk.

Best regards,

Tim

On Sat, Nov 24, 2012 at 5:52 AM, albert ferrer <lokeshkiran@yahoo.com> wrote:
To Mr Tim Boyd.

Dear Sir.

Let me very briefly introduce myself: Prof Albert Ferrer, member of the Theosophical Society in the Arjuna Branch of Barcelona.

After being a Lecturer at the University of Barcelona, I have been working as Visiting Professor for the last years in Sri Sathya Sai University in South India (the best university of the country according to the Government of Delhi). There I was teaching awareness classes (comparative ethics), though the most important was the elaboration of an educational project for integral education in human values from an international perspective East/ West.

The project presents both a theory/ philosophy (with a scientific foundation on quantum physics/ new science in dialogue with spiritual philosophy) and a practical pedagogy, aspiring to implement it through model schools, ideally in parallel in South India (Bangalore is the best place), South Europe (Barcelona is an ideal place) and USA (California would probably be the most suitable area). I mention the possibility of a triple parallel implementation precisely because this new project of profound and serious integral education is also essentially international towards the unity of mankind, and it would aspire to create an international network based upon intercultural dialogue, cooperation and mutual enrichment.

We can say that this project puts forward the pedagogy of Theosophy, and tries at the same time to be rigorous in academic terms. In fact, the interest arisen in my country has been so clear that I have been recently appointed as Consultant for Education to the Government.

Moreover, the project has arisen strong interest in several areas, I even had a positive response from world famous scientists like F. Capra and A. Goswami. A Tibetan Minister and MP based in Europe will directly bring it to the Dalai Lama.

We are now in the process of finding persons, organizations interested in the implementation. I hope that this matter can be of your interest too. Several persons within the Theosophical Society here are bringing

Fecha: Domingo, 26 de mayo, 2013 5:24 P.M

Mr Ted Henry

U.S. Journalist

Dear Jim and everyone (and Albert),

You should know about a dear friend of our's, Dr. Albert Ferrer. Albert is from Barcelona, where he taught philosophy before moving to live and work with his adopted boys in Puttaparthi. (Albert taught at Baba's university) Albert was engaged with Baba on many occasions regarding the purpose of beginning an *international university...and international system of education* that would teach Sai concepts and human values.

Sri B.M. Narasimhamurthy, the driving force behind Baba's Muddenahalli school and university, is excited about Albert's goals and is interested in adopting them for future Baba schools.. (I filmed a documentary on Muddenahalli and an interview with Narasimhamurthy which is being worked on now)

Albert has been in conversation with us for at least the last 4 years regarding this project. He still lives in Parthi but he is very interested in looking to see if Baba wishes to guide him elsewhere (maybe to America) to begin his *totally innovative international school & education concept.*

Now that your idea continues to pick up momentum it would be well worth it to check our last (of three) Souljourns video interviews with Albert in which he details Baba's specific plans for him to begin this *school and university.*

Albert's three videos are all gems. He is gifted on many levels. To see them, just go to vimeo.com/souljourns and put in his name.

Jody is very excited about the possibility of Albert joining forces with all of you. He has already expressed interest to us about coming to America, and to California in particular. Jody says that by watching Albert's first two Souljourns interviews one can easily see how apparent it is that *Albert is a mystic, saint and scholar.*

(Albert, Jim is new in my life but is a serious man with a serious goal to serve humanity as Baba desires, and Sunder Iyer has 5 video interviews on Souljourns. Baba guided him through his basic schooling, through his masters and Phd degrees and then called Sunder to be his personal in-house attendant in Baba's home for a period of two years.)

((below is an overview of Albert's vision....Jim and Sunder, sink you teeth into this proposal and I think you'll see how perfectly aligned it is with yours))

Prof. Dr. Albert Ferrer

"From mainstream schooling to holistic education.

A personal turnabout and a paradigm shift"

I. A personal turnabout.

It is well-known that the French philosopher, Rene Descartes, starts his famous "Discourse on the Method" by critically examining the educational process he underwent when he was a boy. It is also a personal reflection upon my own education that brought me to the field of integral or holistic education.

Although Catalan from origin and born in the 2000 years old city of Barcelona, my parents decided to

Dear Isaac,

today, in the aftermath of my Village Seva I have been invited to meet with Prof. Dr. Albert Ferrer. A few month ago you were handed the short version of the first proposal of integral education that really blends in depth the best from the West and the East by this exceptional Professor, whom Swami has entrusted and empowered to create the Matrix for His most important educational Project yet to manifest.

For the manifestation and the financing of His monumental task to "bring the general public, the educational, academic, scientific and governmental arena of the modern world to the threshold of a paradigm shift" and present and implement a workable project, which transcends any cultural and/or religious limitations and takes us beyond any remaining amateurish interpretations, empowering mankind to "unveil all the depth of integral value-based education in a serious academic format", which at the same time nourishes our eternal hunger and quest for beauty and art.

Isaac, I ask myself: Swami, why would You introduce me to one of the finest Philosophers this world ever saw - Your son Albert - at this particular moment in time?

Loud and clear His Answer rings in my heart:

Isaac, Antos and you, Wolfgang are My instruments to give birth to the Child, which was nourished in the Golden Mental Womb of My Professor!

Swami is empowering You, Isaac, to bring together all the key players with Antos, Ratan Tata and Arvind Kejriwal, the new Chief Minister from Delhi!

Ratan Tata always wanted to do something monumental for Swami:

Motivate him and the Chief Minister, to evolutionize India's energy production and its consumption, to implement the most advanced Water Management, Waste / Waste to Energy Management treatment technologies (all in the package of Antos and myself) and let them spearhead these campaigns, thereby giving full support to the Humanitarian Trust, where You are invited to come on board. And together let us spiral up the circle and launch what Swami offers the World through His instrument Prof. Dr. Albert Ferrer.

When You read the following testimony of Albert you will understand, Isaac, why I am so adamant and emphatic with You right now!

With Love

Shri Satyam Sai World Foundation
Holland

Dear Mr. Ferrer, Sai Ram,

Thank you for your mail and all the information about the educational project of our beloved Swami. We have read the information and to us it is a wonderful seva project Baba has granted to you to prepare. We very much agree that a radical change in the educational patterns should happen to the good of all humanity.

We have presented this information to Shri Satyam Swami Ji. Now it is to His will what is going to happen.

Hereby we invite you to our kirtan we perform every month in Holland. You are most welcome to join us with kirtan and bhajans in the presence of Shri Satyam Swami Ji. Devotees from all over Europe come to the kirtans, from Germany, Belgium, France, England and Italy.

Next months the kirtans will be held on 23th of November and on 21th of December. Also we will have Akhand Kirtan on the 16th and 17th of November.

The address is:

Antares Hall

Maximaplein 7

Leusden-Zuid (near to Utrecht and Amersfoort)

In case you need further information and if you have any questions, please contact us. You can also check our website (but it is in Dutch) www.shrisswf.org

With warm greetings and love, in Sai service,
Sai Ram

 Fecha: Miércoles, 25 de septiembre, 2013 9:56 P.M.

Dr I. Bosch
Psychologist/ Therapist
Holland/ France

Sai ram albert, I just saw your video on the project and I liked it very much. Albert this work is important. It is also completely in line with the paradigm from which we work (group of 70 therapists/coaches now) and I am thinking about 1. How to raise funds for your living. Please tell me your absolute minimum. And 2. to see if your project could be introduced in a school in Holland where we are currently doing a special PRI project. And 3. After your basic subsistence has been taken care of, maybe finding ways to a sponsor for starting a school.

Please could you send me one mail In English with a short résumé in English of the project (2 pages?) , a link to the you tube video, and maybe a very short text in the mail explaining the essence (f. Ex. paradigm shift needs a new Ed system blending the best of the west - xxxxx- and the east -xxxxxx- so mankind can grow towards unity).

If you can give me this mail, I will write my experience with you and opinion of the project and see what funds I could possible raise within my direct network group.

Ofcourse I can't promise anything but with my heartfelt recommendation chances are that something will happen within our group.

At least for the first step, i am thinking if trying to raise an Income for you and your children for a period of twelve months.

All my best,

Ingeborg

Estimado Dr. Albert, tengo 48 y terminé hace un año la carrera de magisterio musical en la facultad de Málaga ya que soy originaria de esa ciudad, aunque en estos momentos y tristemente estoy en paro con referencia a esta nueva profesión que he elegido.
Por "casualidad", no creo que exista, me han llegado vídeos y audios suyos hablando del nuevo paradigma de la educación, los cuales he visto y escuchado con mucha atención y me han parecido fascinantes. En estos momentos me encuentro estudiando Educación Holista, semipresencial, a través de los cuadernos pedagógicos 3000, realizado por asesores pedagógicos y terapeutas holísticos de Perú y Argentina. El curso son dos años y lo lleva a cabo nuestro querido Director D. Carlos Espinosa Manso, Doctor en Ciencias de la Educación, Inspector de Educación, conferenciante, etc.
Para mi, que me he abierto a lo espiritual desde hace algunos años, este curso está aportando mi Ser muchísimo y quisiera indagar más sobre la Educación Holística, en la línea que usted nos introduce en sus charlas. También me atrae mucho el pensamiento de Krishnamurti y de manera casual leí El universo Holográfico de Michael Talbot, donde nombra a David Bohm.

Bueno, como dicen los jovencitos, dejaré de flipar e iré al grano, podría mencionarme libros, vídeos o incluso leer más sobre proyecto en India que lo veo tan apasionante como útil para la vida diaria de cualquier niño o adolescente.

Gracias por su tiempo, por su labor y perdone mi osadía, supongo que estará muy ocupado. Un fuerte abrazo desde el sur de España.

Porque nos marchamos al ampurdan

Yo me iba en julio a Sri Lanka, pero he cambiado el plan porque en agosto

y septiembre viene el venerable Wachissara , del budismo theravada y

vamos a dar un curso de budismo y meditación en Galicia este verano en la escuela de Javier Ackermann.

Me parece tu plan maravilloso y podré ayudarte con seguridad.

Ahora estoy un poco agobiado y me ha llegado una visita a casa

Te llamo mas tarde

Budusaranai

Educationist

Argentina

Apreciada Melissa.

Te reenvio un correo que me envio hoy una hermana muy linda de Argentina, creo puede ser bueno que esteis en contacto, tambien se interesa por el proyecto educativo para hacerlo en America Latina. Podeis comunicaros. Nos vemos pronto igualmente en tu bello espacio.

un abrazo.

Albert.

OM SAI RAM

Amadisimo Hermano!

Estoy muy feliz de volver a comunicarme contigo!

Como te imaginaras en este último Encuentro anual Nacional del Instituto estuve hablando muchísimo de vos y de todo tu trabajo y de los maravillosos vídeos que por fin había encontrado en Youtube en el cual hablabas en español.

Miembros del ISSEVHA se interesaron mucho por tu trabajo por eso les envié al Director tus videos y tu correo deseando con toda mi alma que muy pronto SWAMIJI te traiga a la Argentina.

Como recién vuelvo a conectarme con el Instituto y tengo muchos contactos en el mismo me encantaría si podes, que nos enviaras mas material, para seguir profundizando en todos los temas que con tanta claridad desarrollas, porque solo encontré estos cuatro videos en español, porque estoy fascinada por la forma tan simple como desarrollas temas tan profundos.

También quiero agradecerte porque al escucharte hablar sobre Krishnamurti recordé con mucha emoción cuando siendo muy chica escuchaba a mi padre hablar de él, porque en esa época el leía sus libros.

Me despido en este día sintiendo un profundo agradecimiento a SWAMI por haberme permitido viajar y haber tenido el honor de conocerte, porque se necesitan muchos seres de tu calidad humana, para que podamos elevar nuestras conciencias en estos tiempos tan difíciles que estamos transitando.

OM SAI RAM

Querido hermano:

Aquí te estoy enviando la grabación de el ultimo encuentro en el cual tuvimos el honor de escucharte. Lamento que solo fueron dos oportunidades.

Como quisiera enviarles mas material tuyo al grupo de capacitacion del ISSEVHA y de la ORGANIZACION SAI busque en Internet y encuentre dos videos en los cuales hablas en Ingles. Pero quisiera saber si aparte del libro que escribiste tenes algo mas publicado o algun otro video que sepas que esta traducido al español mejor y si no igualmente va a ser util igual.

Tu preparacion y conocimientos son muy elevados, por eso te pido si me envias mas material para que todos puedan recepcionar mejor tu valiosisimo mensaje y por supuesto puedan contactarse contigo.

Agradezco infinitamente que Swami nos haya permitido conocer tu mensaje. Te deseo LO MEJOR!!!

Con todo nuestro SAI AMOR los Argentinos siempre te estaremos esperando, porque necesitamos seres como vos que nos permitan elevarnos.

Cariños

Dora

Estimado Albert Ferrer,

Ayer tuve la oportunidad de escuchar la charla que dio usted en la Rama Arjuna de Barcelona sobre Educación Holística.

Fue realmente un gran placer escucharle, y saber que en relación a un Vivir Holístico Oriente-Occidente haya gente tan estudiosa y seria como usted, y otra gente que también están en ello si bien no tienen un gran protagonismo y trabajan en silencio por un mundo mejor. Pero es importante que alguien con su capacidad pueda poner palabras a conceptos que muchos de nosotros tenemos y pensamos pero que nos cuesta poner expresar con claridad.

Soy Psicóloga, Uruguayo-Británica, Profesora de Yoga de Sivananda y practico la Meditación Budista Zen y anteriormente la Tibetana. Ha sido el comienzo de un camino fascinante en la compenetración con los conceptos de la filosofía Oriental a la cual estoy profundamente agradecida y de la cual me nutro constantemente.

Me interesó muchísimo escuchar sobre el Proyecto que tienen allí en el Sur de la India, no anoté exacto la región que usted mencionó, pero me pareció un proyecto maravilloso de tener un lugar dedicado a una Educación desde los conceptos mas ricos del Oriente y del Occidente.

Yo he vivido unos años últimamente en Barcelona donde tuve la exquisita oportunidad de compartir varias actividades y charlas y conferencias en la Rama Arjuna, fue una hermosa experiencia y sigo desde aquí disfrutando del material que ellos comparten siempre tan generosamente.

Mi conocimiento sobre Sai Baba fue a través de gente que tuvo la oportunidad de conocerlo personalmente, especialmente a través de Indra Devi, con quien tuvo una hermosa amistad, y a quien conocí en la ciudad de Asunción durante una de sus giras sobre Yoga, y quien a su vez escribió un libro en relación a su encuentro con Sai Baba.

Me interesaría muchísimo poder conocer más sobre este Proyecto Educativo que planean poner en funcionamiento, yo podría enviarle si a usted le parece bien mi CV, para poder ver y pensar la posibilidad de participar activamente de ese proyecto.

En este momento de mi vida tengo 60 años, estoy activa, trabajando, y espero por muchos años más. Me gustaría la idea de vivir en la India, y formar parte de un proyecto que ayude a los niños y a los adolescentes a comprender y alcanzar un estar en el mundo más armonioso y creativo. Y alcanzar la adultez para ser gente de bien sin perder el poder tan grande de lo lúdico y que usted tan bien recalzó.

Le agradezco desde ya la gran generosidad con la que comparte sus conocimientos y sus trabajos y los claros conceptos que ha sabido explicar de forma tan sencilla y amena.

Le envío un afectuoso y agradecido saludo desde el corazón de

Buena noche le deseo Dr. Albert.

El motivo de escribirle se debe a que soy miembro de la Sociedad Teosófica en Costa Rica, Logia Dharma. Tendremos una charla de una hermana sobre Física Cuántica y Espiritualidad.

Busqué en Youtube algo sobre el tema y me encontré con su Conferencia en la Sociedad Teosófica Española sobre La Educación Integral: la pedagogía de la Física Cuántica y me gustó demasiado, además de que me aclaró algunos puntos muy importantes para mi. Luego vi "Nuevo Paradigma aplicado en la Educación Integral", que también me satisfizo mucho.

Había una entrevista en inglés que le hacen sobre Sai Baba pero no pude aprovecharlo todo porque no domino el inglés. He estado estudiando un poco sobre Sai Baba y escucho siempre el Gayatri Mantra y otros.

Gracias por su inmenso interés en cambiar el sistema pedagógico tradicional y enfermizo por algo nuevo e integral.

Saludos Fraternos de mi parte Albert.

Estimado Albert,

He conocido tu proyecto a través de un video de youtube en el que das una charla sobre pedagogía cuántica en la escuela teosófica de Barcelona. Ha sido un impacto muy ilusionante para mí saber de la existencia de un ser humano y un proyecto verdaderamente educativo que resuena 100% con mi visión de la educación.

Llevo 2-3 años desde que dejé el aula de educación primaria buscando un equipo de gente al que unirme para trabajar con compromiso y conciencia, en un proyecto educativo significativo para el impulso evolutivo que necesita dar actualmente la humanidad. Las alternativas encontradas no me han convencido (Waldorf, Montessori, etc.). Además, no creo en métodos y técnicas establecidas, ni mucho menos en seguirlas y aplicarlas a "pies juntillas". En lo que yo creo y en lo que yo me he basado en mi experiencia es en la conciencia y en la infinita sabiduría que transmite a cada momento. A mi modo de ver, una educación viva e integral con base en la conciencia y en la realidad multidimensional que se despliega nuestra existencia, requeriría una formación del futuro maestro más allá de métodos y técnicas. La formación universitaria es muy muy pobre e inconsciente hoy en día, igual que en el resto de etapas inferiores, por ende. La humanidad, la universidad, los niños, la situación mundial en general en la que nos hallamos está pidiendo a gritos que despertemos la conciencia infinita y eduquemos para utilizar la mente de forma libre, intuitiva y creativa, en coherencia al ser esencial.

Ante mi frustración por no encontrar ningún proyecto en esta línea, y, ante la dificultad que intuía en crearlo yo misma, al menos aquí en España, comencé un doctorado en la Universidad Autónoma de Madrid con idea de contribuir en un futuro a la formación del profesorado. Enseguida me encontré con muchas trabas en este frente también, empezando por mi propio director de tesis. Es por ello que decidí hacer un paréntesis. Tantas dificultades fuera me mostraron que tenía aspectos karmicos de mi personalidad que trabajar para poder dar un paso mayor. Eso es a lo que me he dedicado los últimos meses, compaginándolo con un centro de yoga y meditación que abrí al dejar el aula.

Cerrado lo que ha sido un duro ciclo de experiencia a nivel de personalidad, abriéndome a una nueva etapa de mayor luz me pregunté: cuál es el siguiente paso que ya puedo dar?

Dejé que fueran llegando las respuestas del silencio, la calma, la intuición,...llegaron el 3 de diciembre, tras la depuración escorpiana, en el mes de Sagitario y su flecha que apunta a la verdad. Además el día 3, número que simboliza la actividad inteligente de la Trinidad Divina (VOLUNTAD- AMOR SABIDURIA- INTELIGENCIA ACTIVA). Ese fue el día que llegaron de repente tus videos con toda su contundencia reavivando mi llama del compromiso educativo temporalmente frenado.

Como los videos que he visto son de hace 4-5, te envío este correo para comprobar si ésta sigue siendo tu dirección de correo electrónico. Me encantaría poder escribirte con más profundidad para compartir impresiones, sopesar opciones de servicio, y consultarte, desde tu amplia visión y conocimiento a nivel educativo del estado de la situación en general, en qué ámbito o de qué manera sería mas útil poner mis esfuerzos estimulando el amor y la voluntad de la conciencia actualmente,

Mirari Ederra Lacruz

School teacher and educationist, Spain

para contribuir en este sendero de servicio a la manifestación coherente de lo que somos.

Tras 4 años de experiencia, espero que tu proyecto piloto en la India esté yendo bien y vaya expandiéndose a todo el mundo. Sería un honor contribuir a ello.

Un afectuoso saludo,

Mirari

Estimado Albert,

Muchas gracias por compartir conmigo tan generosamente todo este material. Me llevará un tiempo leerlo y visualizarlo, aunque si es creación de una misma conciencia compartida, a través de la intuición en un instante percibiré la totalidad de la sabiduría contenida (el proceso mental superior intuitivo ya sabemos que opera a través de la conciencia por otra dimensión fuera de la espacio temporal).

Estaré encantada de compartir impresiones por supuesto que siempre desde el respeto y la conciencia.

Te agradezco también la intención de mantenerme informada sobre lo que vaya materializandose.

Estamos en contacto.

Un afectuoso saludo,

Mirari

14/9/17 10:48:12: +34 660 83 36 82: ॐOm Sri Sai Ram; querida Sai familia, les envío el resumen de la conferencia - Satsang del pasado día 10 de septiembre en el Centro Sathya Sai Barcelona.

El centro Sai se honró con la visita y la exposición del Dr. Albert Ferrer.

Una persona que tiene un currículo impresionante, además de un vagaje impecable en su formación académica el trabajo práctico de los Valores Humanos.

Las personas que queremos formarnos en Valores Humanos debemos seguir atentamente el trabajo de investigación que está haciendo el Profesor Ferrer y pedirles periódicamente, si está dentro de sus posibilidades, que nos oriente en este Oficio que es la Enseñanza de los Valores Humanos en esta sociedad.

Dividió su intervención en tres partes:

Nos habló de algunas de sus vivencias en Prashanti, cerca de Baba. Lo que aprendió de Swami directamente en su vida personal.

Habló del significado verdadero del Mensaje de Swami. Habló de IR al FONDO de las cosas, que no hagamos las cosas a medias.

Se puede hacer usando el Método Simple. Solo en TRES pasos.

Recalcó la importancia de Ver la cercanía de Dios en nuestras vidas.

Hizo la recomendación amorosa de que No idealizar la Imagen, la persona y el mensaje de Swami.

Citó a grandes filósofos para poner ejemplos del mensaje Vivo que hay en nuestra sociedad y que solo tenemos que verlo.

Los Upanishads,

La Era de los Vedas como la más grande educación que ha recibido el ser humano en toda la historia de la humanidad y como los grandes filósofos se nutrieron de las enseñanzas vedicas para ser quienes son. A pesar de los siglos la filosofía, las enseñanzas los valores no mueren, por lo tanto la humanidad no podrá anular ni borrar el Conocimiento.

Los Valores humanos tienen tres principios elementales y básicos para entenderlos y compartirlos correctamente, y de manera Natural.

De forma simple. Lo que el Prof. Albert explicó es imposible resumirlo en este e mail, fue demasiada información y muy completa. Su experiencia es extremadamente amplia, académica y práctica.

Swami le dijo que Barcelona tendría una Escuela de Valores Humanos, Albert es el único extranjero en este proyecto internacional, el cual Swami le encargó personalmente. Baba colocó a Albert Ferrer en este proyecto para que Europa tenga la proporción que este proyecto tiene fijada para el futuro. Es un equipo de profesores que levantarán y transformarán la sociedad a mediano y largo plazo.

Tenemos que formar parte de este importante proceso. El Centro Sathya Sai Barcelona debe regenerarse, intentaremos estar a la altura de las circunstancias.

Swami les ha bendecido tenemos que ser capaces de Ver esto que está ocurriendo. La humildad y la sencillez con que explicaba

argumentos filosóficos que para cualquiera de nosotros son complicados, pero escuchados de la voz del profesor Albert se entendía de forma muy sencilla.

Nos explicó que lo Primero en la enseñanza vedica es Ver. Estamos rodeados de las enseñanzas de Swami y no le hacemos caso, no lo ponemos en practica. Solo tenemos que Ver a nuestro alrededor

Ver lo que tenemos delante sin estereotipos. No hacer las cosas de memoria-mecanicamente, recitar las ideas sin poner el corazón en ello. La enseñanza Sai esta al nivel de una Catequesis por lo tanto debemos implicarnos mas para conseguir una generación de personas Libres y fuertes en el conocimiento espiritual.

Lo segundo es Saber- Saber qué es lo que estamos viendo y comprender las enseñanzas e ir más lejos- es Hacer entender ese Saber a los demás. La educación en sí es algo SAGRADO, pero la Educación en Valores H., aún es mucho mas amplia, completa y vital para la humanidad.

Puso mucho énfasis en la enseñanza VEDICA y en la FORMACIÓN de los Profesores para que consigan auto-transformación en Valores humanos. Bhagavan Sri Sathya Sai Baba lo dejó todo dicho y escrito en cuanto a Valores Humanos. Solo ésto es un mundo de información practica y teórica para la enseñanza en Valores humanos y el crecimiento personal de los profesores, padres y madres etc

Lo tercero es la Transformación. Individual y social. Habló de la Transformación- la cual es la meta de la enseñanza Sai. El profesor que enseña Valores debe VER, SABER y HACER que ocurra la transformación en sus estudiantes.

RESPUESTAS a los asistentes:

Albert respondió a las preguntas que le formularon algunas personas, todo fue estupendo y dentro del tiempo previsto para este Satsang que se nos hizo reamente corto.

Espero que el Dr. Albert Ferrer vuelva pronto para alimentar nuestra devoción con sus enseñanzas practicas sobre Educación en Valores Humanos.

Comida Fraternal:

Estuvimos comiendo antes del Satsang, compartimos un momento muy bonito intercambiando anécdotas mientras comíamos juntos.

Agradezco a la Junta directiva por facilitar esta "clase de Vedas Especial", fue una gran bendición de Swami tener al Profesor Albert Ferrer en Barcelona.

Om Sai Ram.

Para lokeshkiran@yahoo.com

Benvolgut Albert Ferrer,

Fa unes poques setmanes, tot fent recerca d'articles sobre Krishnamurti per un treball sobre Krishnamurti dins del fons Panikkar de la Biblioteca de la UdG per al Seminari Panikkar, he descobert el teu article "*Del diàleg intercultural al diàleg interior*" on reflexiones sobre Panikkar i Krishnamurti. M'ha semblat un gran article, ple d'anàlisi profund on es relaciona perfectament el món intercultural amb el món interior, tasca pendent i urgent en el món actual. En ell comentes que Panikkar i Krishnamurti es coneixien i varen coincidir a Varanasi; referent això, et volia preguntar si tens alguna fotografia o citació d'aquestes trobades a Varanasi.

També he descobert el teu treball sobre "*Integral value education towards the transformation of humanity and new paradigm*". Descobrir el teu treball ha estat com descobrir una llum a la foscor. M'ha semblat molt interessant i he trobat una gran coincidència de punts de vista i de plantejaments. Ha estat una gran alegria saber de tu, conèixer els teus articles i les teves línies d'interès i de recerca.

El meu nom és Emili Puig i Vilaró. Jo treballa com a professor de FP de l'especialitat d'Intervenció Sociocomunitària als CFGS de Serveis Educatius, Socials i Culturals i també com a Professor Associat de la Facultat d'Educació i Psicologia de la Universitat de Girona. Els meus àmbits de treball i recerca són sobre l'educació per a la sostenibilitat amb una visió global i holística.

La meua Tesi doctoral va ser sobre l'educació per a la sostenibilitat des d'un punt de vista holístic i integral:

<https://www.tdx.cat/handle/10803/403346>

Cada any, des de fa tres anys faig una estada d'intercanvi i recerca com a professor invitat a la University of Calcutta i a la Visva Bharati University cada gener i febrer:

<https://www.udg.edu/ca/udg/detall-noticies/eventid/186>

Seria un honor poder intercanviar informació, compartir punts de vista i visitar-te personalment en algun dels viatges a l'Índia.

Cordialment,

Dr. Emili Puig i Vilaró

Escuela de Educación Holística "Arco Iris"

EDUCACIÓN PARA LA VIDA

La educación es toda actividad que capacita a un ser humano para la completa expresión de su potencial. Ha de capacitar a las personas para la vida y no únicamente para ocupar puestos de trabajo específicos.

QUIENES SOMOS?

Somos un grupo de profesionales, de distinta formación, que llevamos años estudiando, meditando y poniendo en práctica las enseñanzas de personas avanzadas a nuestro tiempo. Y queremos compartir nuestros conocimientos y experiencias con personas interesadas en una Nueva Educación.

La Escuela no tiene fines lucrativos.

NUESTRO OBJETIVO

Nuestro objetivo es transmitir una nueva visión de la educación que integre la Sabiduría ancestral de Oriente y el Conocimiento más avanzado de Occidente. Por citar

algunas autoridades: Alice A. Bailey, K. Parvathi Kumar, Helena y Nicholas Roerich, Krishnamurti, María Montessori, Rudolf Steiner, Vicente Beltrán Anglada, etc., así como grandes científicos, descubridores de la física cuántica como Max Plank, Eistein, David Bohm, Amit Goswami y biólogos, psicólogos y educadores como, Fritjof Capra, Ken Wilber, Rupert Sheldrake, Ervin Laszlo, Gregg Braden, Gallegos Nava, Albert Ferrer, etc.
